

# Tricky vocabulary in Part 12 of the N-400 application

USCIS examiners should not be testing English by asking for definitions of words in Part 12, because these advanced legal terms are not “words in ordinary usage.” Nevertheless, students are reporting that they have been asked to explain the meaning of words in Part 12, and have failed when they were unable to do so. The matter has been causing students a lot of anxiety lately.

Below, Lynne Weintraub has indicated the word or phrase in each question on Part 12 that is most likely to be unfamiliar to students. Next to it you will see a way that a student can (minimally) describe the word/phrase. While these are in no way precise definitions, it is hoped that they will be enough to convince an examiner that the student has some idea of what the question is about.
